---

## SUMMARY OF QUALIFICATIONS

- Proficient in Java and TypeScript, with a background in C programming
  - Experienced in designing and implementing web applications using HTML, CSS, JavaScript
  - Skilled in UI/UX design and prototyping using Figma.
  - Proficient with working with version control (Git/GitHub)
  - Strong problem-solving, debugging, and troubleshooting abilities.
- 

## EDUCATION

*University of California San Diego (UCSD)*

Bachelor's in Computer Science, Graduation Expected (June, 2026),

---

## RELEVANT COURSEWORK & PROJECT EXPERIENCE

Software Engineering - (*UCSD*)

- Collaborated effectively in a team that used an Agile development process.
- Designed and documented software systems according to stakeholder needs.
- Implemented and debugged software systems.
- Nominated for Best Project for developing a fun and engaging game.

Design and Analysis of Algorithms - (*UCSD*)

- Applied algorithmic techniques (sorting, searching, graph algorithms) to improve performance and optimize code solutions.
- Implemented solutions to real problems using algorithmic thinking and debugging skills.

Beauty and the Brain - (*UCSD*)

- Studied cognitive foundations of aesthetic perception to understand why certain visual designs engage users.
  - Presented a project that analyzed principles of human perception and visual preference. Have used this knowledge to create interfaces that feel intuitive and appealing.
-
